

Short Bio of Dr. Evangelos OUZOUNIS

Senior Expert – Network Security Policies

Dr. Evangelos OUZOUNIS is a senior expert at [ENISA](#), the European Network Information Security Agency. He is responsible for the security policy section of the Technical Competence Department of the Agency. His section mostly contributes to the Resilience Program of the Agency.

Dr. Ouzounis' personal contribution is on policy, strategy and regulatory issues related to the resilience of public communications networks. He managed the analysis and stock taking of 25 EU countries' national policy and regulatory environments. He currently develops a number of good practice guides on information sharing exercises, incident reporting mechanisms, and preparedness exercises.

Prior to his position at ENISA, Dr. Ouzounis worked several years as a project officer at the European Commission, DG Information Society and Media ([DG INFSO](#)). He contributed significantly to DG INFSO's R&D strategy and policies on secure service provision (e.g. eGovernment, eBusiness and eHealth), secure applications development (eIDs, secure S/W development).

Dr. Ouzounis was co-founder of Electronic Commerce Centre of Competence (ECCO) at Fraunhofer Institute for Open Communication Systems ([FhG-FOKUS](#), Berlin, Germany). He led and managed more than 20 pan European and International R&D projects in the areas of virtual organisations, secure distributed middleware, intelligent agents and web services. He was a lecturer at Technical University of Berlin, wrote 2 books and more than 20 peer reviewed academic papers and chaired several international conferences.

Dr. Ouzounis holds a Ph.D from the Technical University of Berlin and a master from the Technical University of Patras in computer engineering and informatics. He is married and has two kids.
