The regime on public access to ENISA documents as laid down in Decision MB/2013/14 of 17 October 2013 regarding public access to documents should be revisited.

(4) In order to bring about greater openness, ENISA should grant access not only to documents drawn up by it, but also to documents received by it while at the same time preserving the right for the third parties concerned to express their positions with regard to access to documents originating from those parties.
