

Update on NLO activities

Katerina Christaki

Past collaboration actions

- Country reports
- Who is Who
- ECSM'2013
- Security Practices of Trust Service Providers

Past collaboration actions

- Slovenia:

- ENISA's Seminar on the CIIP Exercises that was organized in Ljubljana on 14th of March 2012
- Art 13a Meeting held on 23-24 October 2013 in Ljubljana

- Spain:

INTECO dissemination of com received through NLO network (twitter, web page, Press releases, mailing lists etc). Participation of ENISA in several conferences such as ISMS, ENISE, Industrial Cybersecurity center, FISHA workshop. Collaboration of organisations in ENISA projects through NLO intervention. Participation at ENISA surveys.

Structural news

- Change of contact point at ENISA:
Single contact point: Katerina Christaki

New members for

- Austria, Mr. Timo **Mischitz**
- Czech Republic, Ms. Mariana **Capkova**
- Denmark, Mr. Thor **Sommerstrand**
- France, Mr. Yann **Salamon**
- Hungary, Ms. Anita Tikos

Communications towards the network

- Several mail shots – vacancies, tenders, events, surveys and update of contact list
- Request for participation (ACDC) project
- Dissemination forms

NLOS - What is

- In 2006 ENISA established a network of 25 National Liaison Officers to help in the Agency's work
- National Liaison Officers (NLOs) of ENISA are the liaison between ENISA and the community of network and information security experts and relevant organisations in the EU member states. We abbreviate it as the “local community”

NLOs - Structure

- The NLO network consists of (at least) one NLO per member state – currently 33 members (EU, EEA, 1 from European Council and 1 from EC)
- NLOs have interest and expertise in NIS

Typically an NLO:

- Works in the field of NIS, either in the public sector (ministry) or the IT /Telecom sector
- Is well-connected in the field of NIS and has a large network of relevant contacts in the field
- It may be decided to appoint multiple NLOs for one country in coordination with the MB representative – particularly when the country is large, or when there are multiple distinct communities (private, public, e.g.).

NLO Good Practices

- **Community building:**
 - NLOs maintain and grow a contact list, or mailing list of relevant experts in NIS
 - Besides a mailing list social media networks (Linkedin, Twitter) could also be used to expand their contacts
- **Dissemination/information:**
 - ENISA keeps NLOs informed about activities, news, etc.
 - Periodically (every 2-3 months) NLOs send an update about ENISA's activities to the local community

NLO Good Practices

- **Surveys:**
 - For specific projects ENISA may send surveys to NLOs
 - NLOs forward the survey to the local community
- **Calls for participation:**
 - For specific projects may want to involve experts and send a call for participation in expert groups
 - NLOs forward these calls to the local community

NLO Good Practices

- **Feedback from local communities:**
 - NLOs collect feedback from the local community on ENISA work program
 - NLOs collect ideas about ongoing NIS issues (happening nationally)
 - Periodically ENISA collects this feedback and sends it to the PSG and MB for consideration

New dissemination channels

- Web interface (portal) requiring authorised access, where projects, collaboration opportunities, ongoing collaborations, news, minutes, presentationsetc. will be published.

TBD

- What is public? What not?

Thank you!
