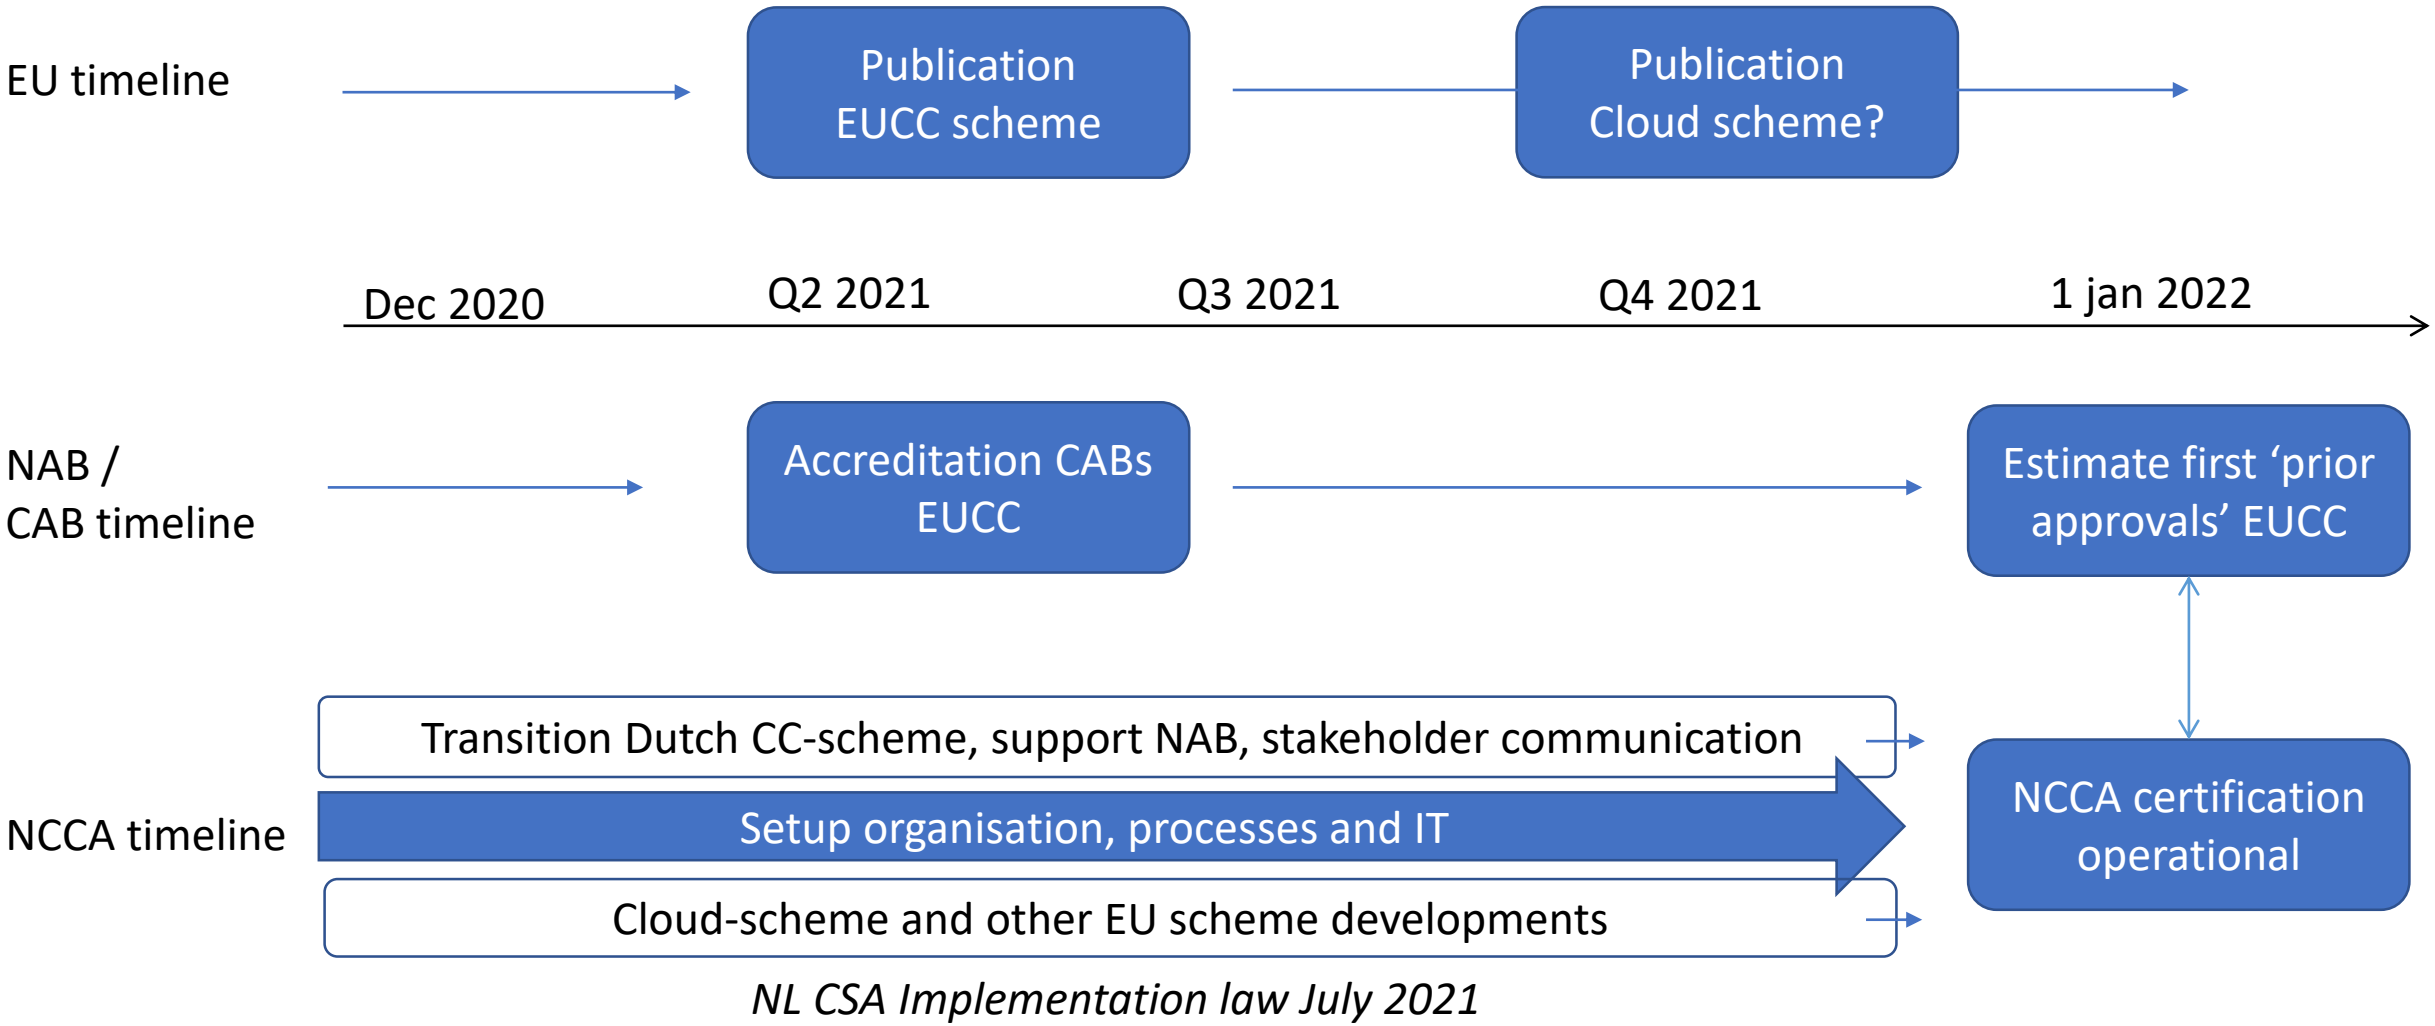
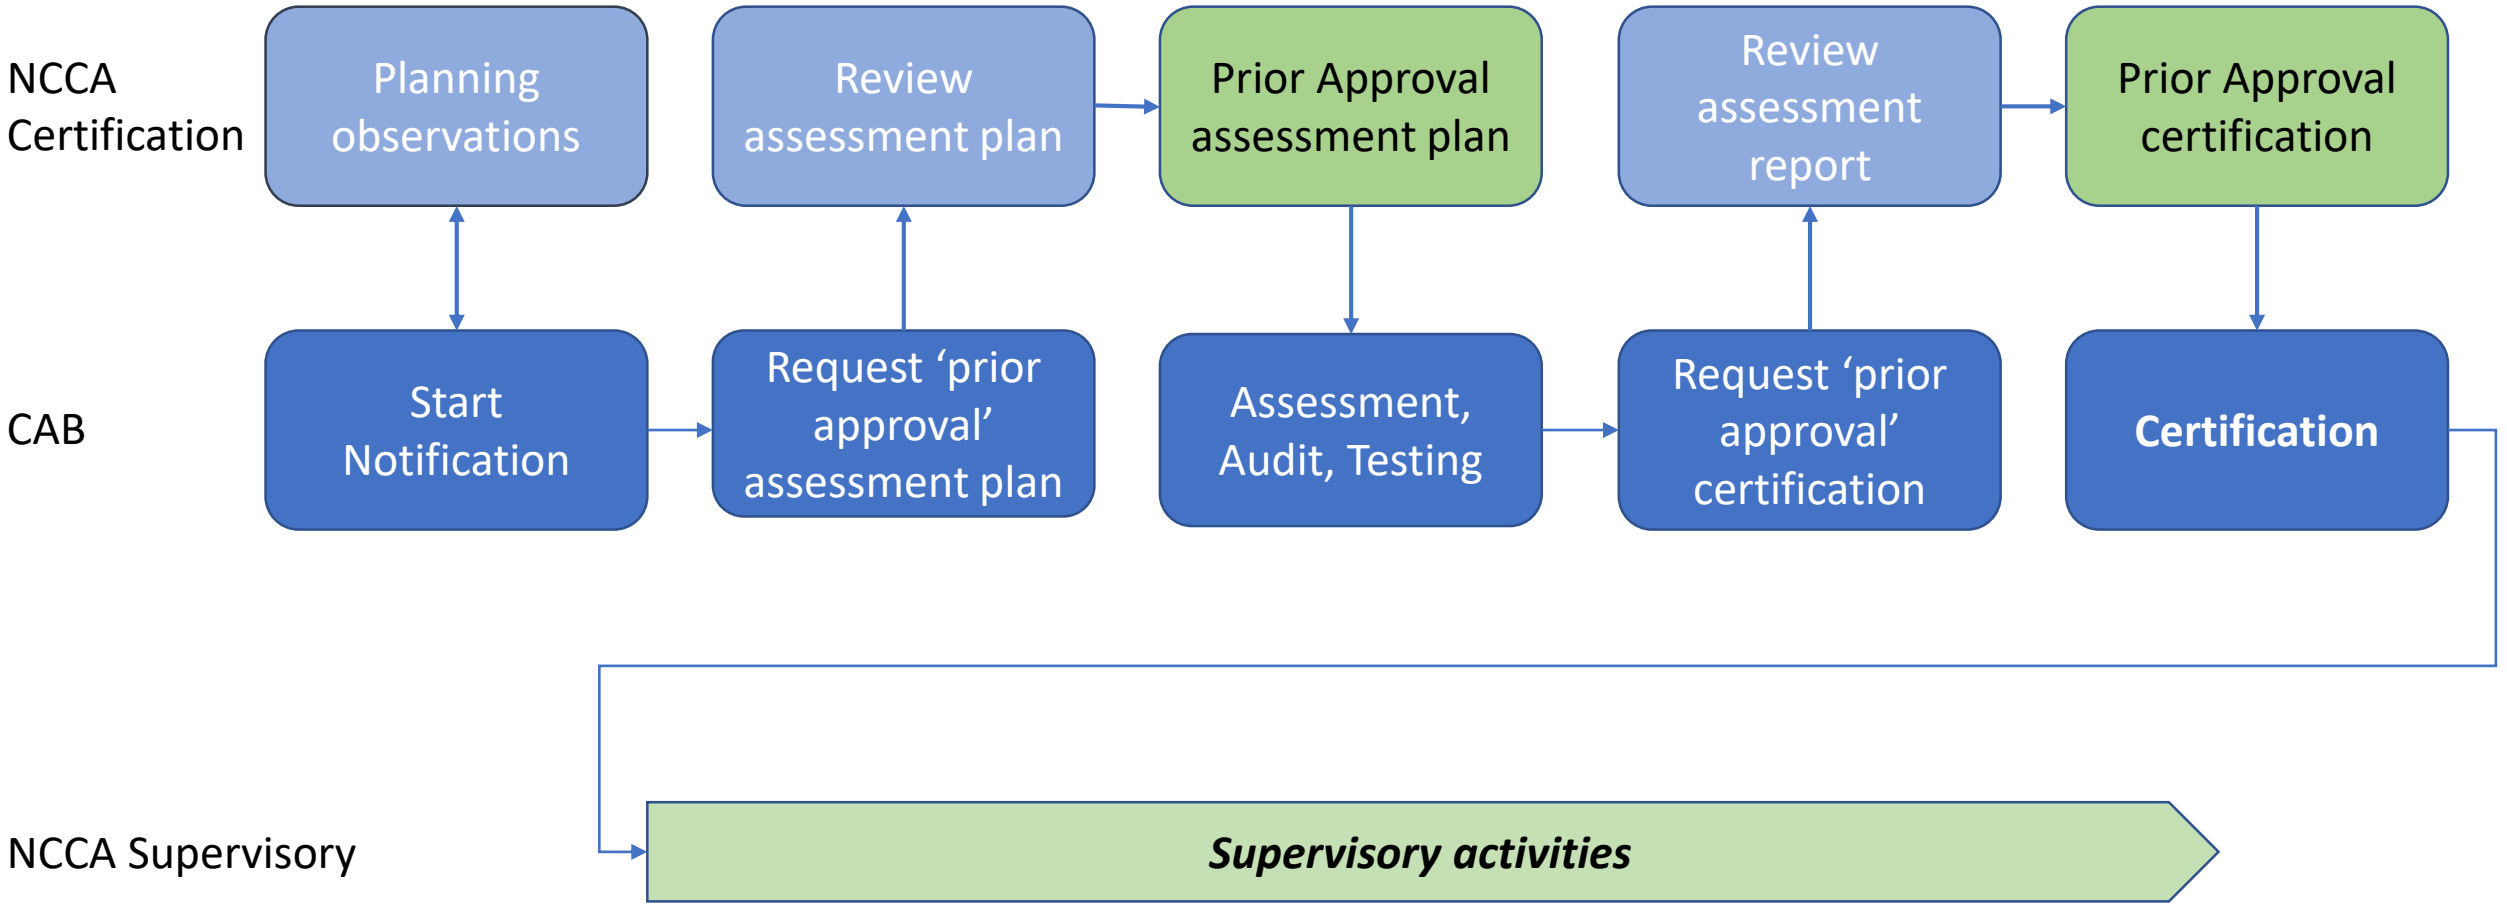
   - Attraction certification personnel
   - Estimate NCCA budgets 2021 and further
3. Start NCCA team certification January 2021
   - Design and implementation process & procedures
   - Design and implementation IT, dossiers and archive
   - Communication to markets of CABs, LAB's, manufacturers
   - Transition national CC scheme (NSCIB)

Time lines NCCA implementation



NL CSA Implementation law July 2021

NL prior approval: EUCC interaction model



Challanges

1. Transition to EUCC without markets disruption
   - Transferral knowledge/responsibilities from one government agency to another
   - Alignment of certification processes NSCIB national scheme - EUCC
   - Alignment of market demands
2. Managing interdependency and unpredictability
   - Voluntary: workload relates tot markets response.
   - Expected: limited unpredictability for EUCC (existing practice)
   - Expected: great for all other schemes
3. Continuing international recognition Dutch certificates (CCRA)
4. Alignment prior approval dossier – ENISA certification website
