

Elena Santiago Cid
CEN-CENELEC Director General

Cybersecurity standardization and the
Cybersecurity Act: where are we today?

CEN-CENELEC, Cybersecurity and the European Standardization system

- **CEN and CENELEC**: the European Standardization Organizations
 - The platforms to develop **European Standards**
 - Key providers of **Cybersecurity** standardization solutions
- Cooperation with **ISO** and **IEC** to develop European Standards, thereby facilitating international trade

CEN-CENELEC, Cybersecurity and the European Standardization system

- **Two active horizontal technical committees:**
 - CEN-CLC/JTC 13 ‘Cybersecurity and Data protection’
 - CLC/TC 65X ‘Industrial-process measurement, control and automation’
- Sectors-specific cybersecurity standardization activities: health, transport, manufacturing, electrotechnology...

CEN-CENELEC, Cybersecurity and the European Standardization system

- **CEN** and **CENELEC** are ready to contribute & increase synergies with **ENISA**
- Developing successful European certification schemes:
 - Need to avoid duplication and set priorities
 - Many standards are already available or under development

Thank you for your attention!

Any question?
