

Ministerie van Economische Zaken
en Klimaat

Cybersecurity of digital products and services and the role of standards

Nelly Ghaoui

Senior Policy Coordinator Cybersecurity,
NL Ministry of Economic Affairs and Climate policy

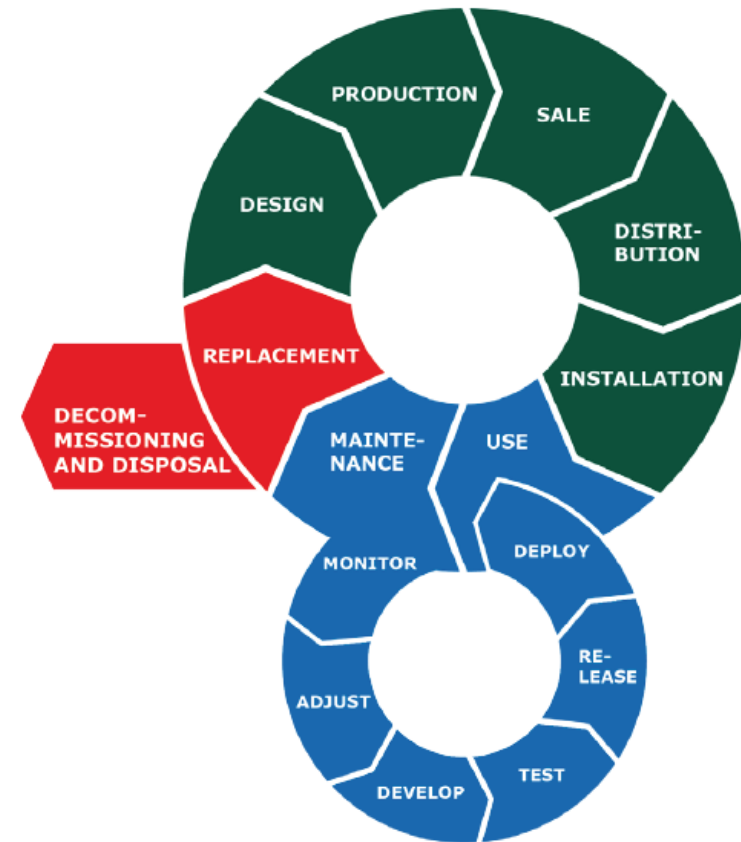

Improving cybersecurity in society

We all have a responsibility in the entire product life cycle

NL perspective: changing market incentives

Minimum requirements
(RED, consumer law),
supervision and liability

Standards and
Certification (CSA and PPP)

National government
procurement policy
(the government as
market player)

Testing by consumer
organisations
(improving market
transparency)

Cybersecurity
Research and innovation
(triple helix)

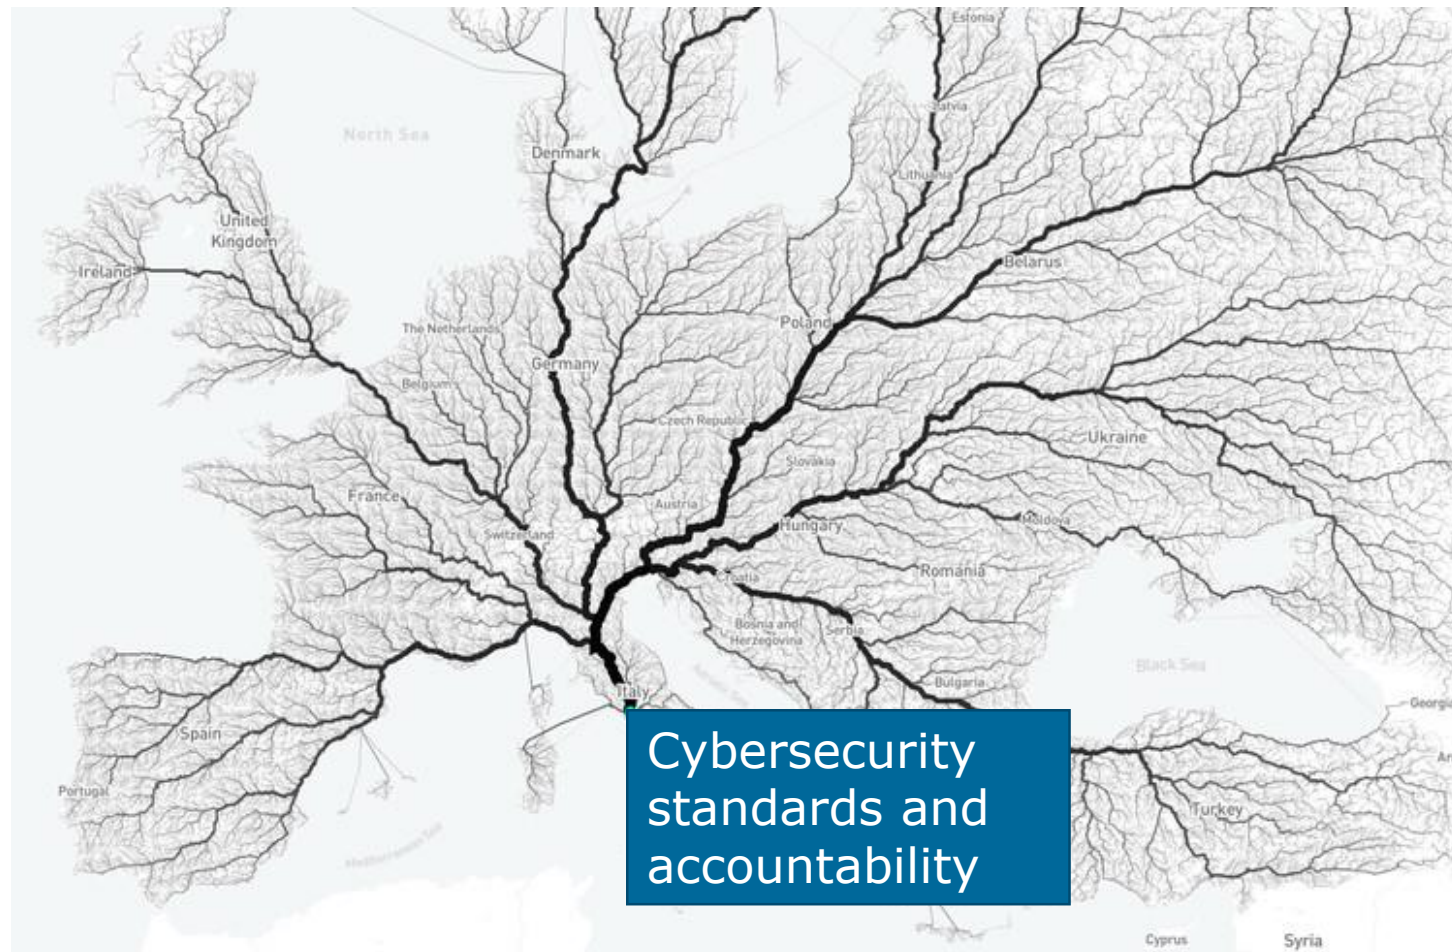

Awareness
campaigns
(Update your
devices!)

All roads lead toward

Cybersecurity standards and accountability

Building a complementary system in the EU
