

# AGENDA

MEETING DATE	29 JUNE 2022, 09:30-17:00 CET
MEETING VENUE	BRUSSELS – THON EU HOTEL
MEETING TYPE	PHYSICAL EVENT

On the 29<sup>th</sup> of June, 09:30 -17:00 CET, ENISA organizes the 2<sup>nd</sup> ENISA Telecom Security Forum in Brussels.

The ENISA Telecom Security Forum focuses on emerging issues related to telecom security across Europe and aims to promote collaboration between the electronic communications providers and telecom security Authorities, focusing on

- Sharing of good practices and experience on coping with latest security threats;
- Discussing the latest developments on the Electronic Communications Framework and other legislative initiatives in a European but also national levels and exchanging views on identified implementation and issues;
- Presenting emerging technologies and relevant initiatives.

## INVITATION

***We welcome relevant experts from the public and the private sector, i.e. experts working at telecom operators, vendors, suppliers, telecom consultancies, industry associations, national authorities, but also cybersecurity experts, policy makers with an interest in telecom security, etc.***

## BACKGROUND

For the last 11 years, ENISA works closely with EU telecom security authorities, members of the ECASEC Expert Group. ECASEC EG, formerly known as the ENISA Article 13a group, has as a goal to implement Articles 40 and 41 of the European Electronic Communications Code (EECC), including telecom security provisions and regulating supervision of electronic communication providers.

ENISA is consistently promoting the connection between the security competent Authorities and the industry. This is the 2<sup>nd</sup> time ENISA organizes the Telecom Security Forum in its current form. The 1<sup>st</sup> ENISA Telecom Security Forum was held in Athens and online on the 13<sup>th</sup> of

Below are some examples of previous ENISA's work in the sector:

- 1<sup>st</sup> ENISA Telecom Security Forum, [ENISA Telecom Security Forum — ENISA \(europa.eu\)](https://enisa.europa.eu/enisa-telecom-security-forum)
