EUROPEAN UNION AGENCY
FOR CYBERSECURITY

CRA SRP Overview

Tallinn, 18th CA-Day

Sławomir Górniak

CRA PRINCIPLES

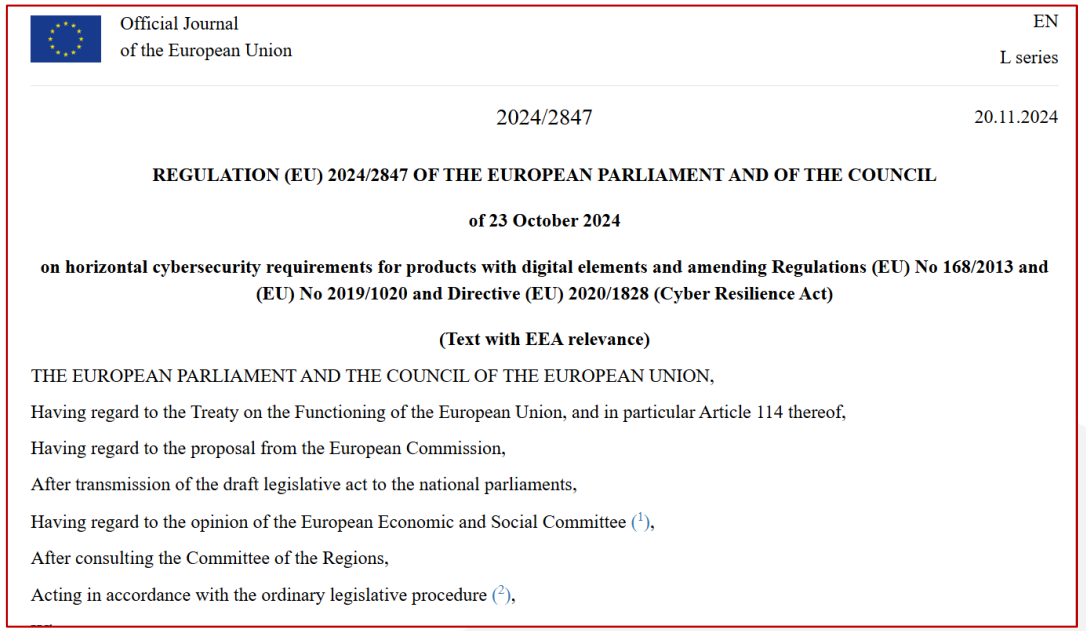

- […]It is therefore necessary to strengthen the Union's approach to cybersecurity, address cyber resilience at Union level and improve the functioning of the internal market by laying down a **uniform legal framework** for essential cybersecurity requirements **for placing products** with digital elements **on the Union market**.

- This Regulation aims to set the boundary conditions for the **development of secure products with digital elements** by ensuring that hardware and software products are placed on the market with **fewer vulnerabilities** and that manufacturers take security **seriously** throughout a **product's lifecycle** […]

- Manufacturers **should notify** simultaneously via the **single reporting platform** both the computer security incident response team (**CSIRT**) designated as coordinator as well as **ENISA** of **actively exploited vulnerabilities** contained in products with digital elements, as well as **severe incidents** having an **impact on the security** of those products.

CRA REPORTING AND SRP – ART 14-17

- **Actively Exploited Vulnerabilities and Severe Incidents impacting product with digital elements**
- **Report to CSIRT designated as coordinator**
- **Information shared with all applicable designated CSIRTs and ENISA unless specific security requests are made**
- **Possibility to voluntary report vulnerability cyberthreat or incident via SRP**
- **ENISA to build, operate, and maintain SRP**

2024/2847

20.11.2024

REGULATION (EU) 2024/2847 OF THE EUROPEAN PARLIAMENT AND OF THE COUNCIL

of 23 October 2024

on horizontal cybersecurity requirements for products with digital elements and amending Regulations (EU) No 168/2013 and (EU) No 2019/1020 and Directive (EU) 2020/1828 (Cyber Resilience Act)

(Text with EEA relevance)

THE EUROPEAN PARLIAMENT AND THE COUNCIL OF THE EUROPEAN UNION,

Having regard to the Treaty on the Functioning of the European Union, and in particular Article 114 thereof,

Having regard to the proposal from the European Commission,

After transmission of the draft legislative act to the national parliaments,

Having regard to the opinion of the European Economic and Social Committee [1],

After consulting the Committee of the Regions,

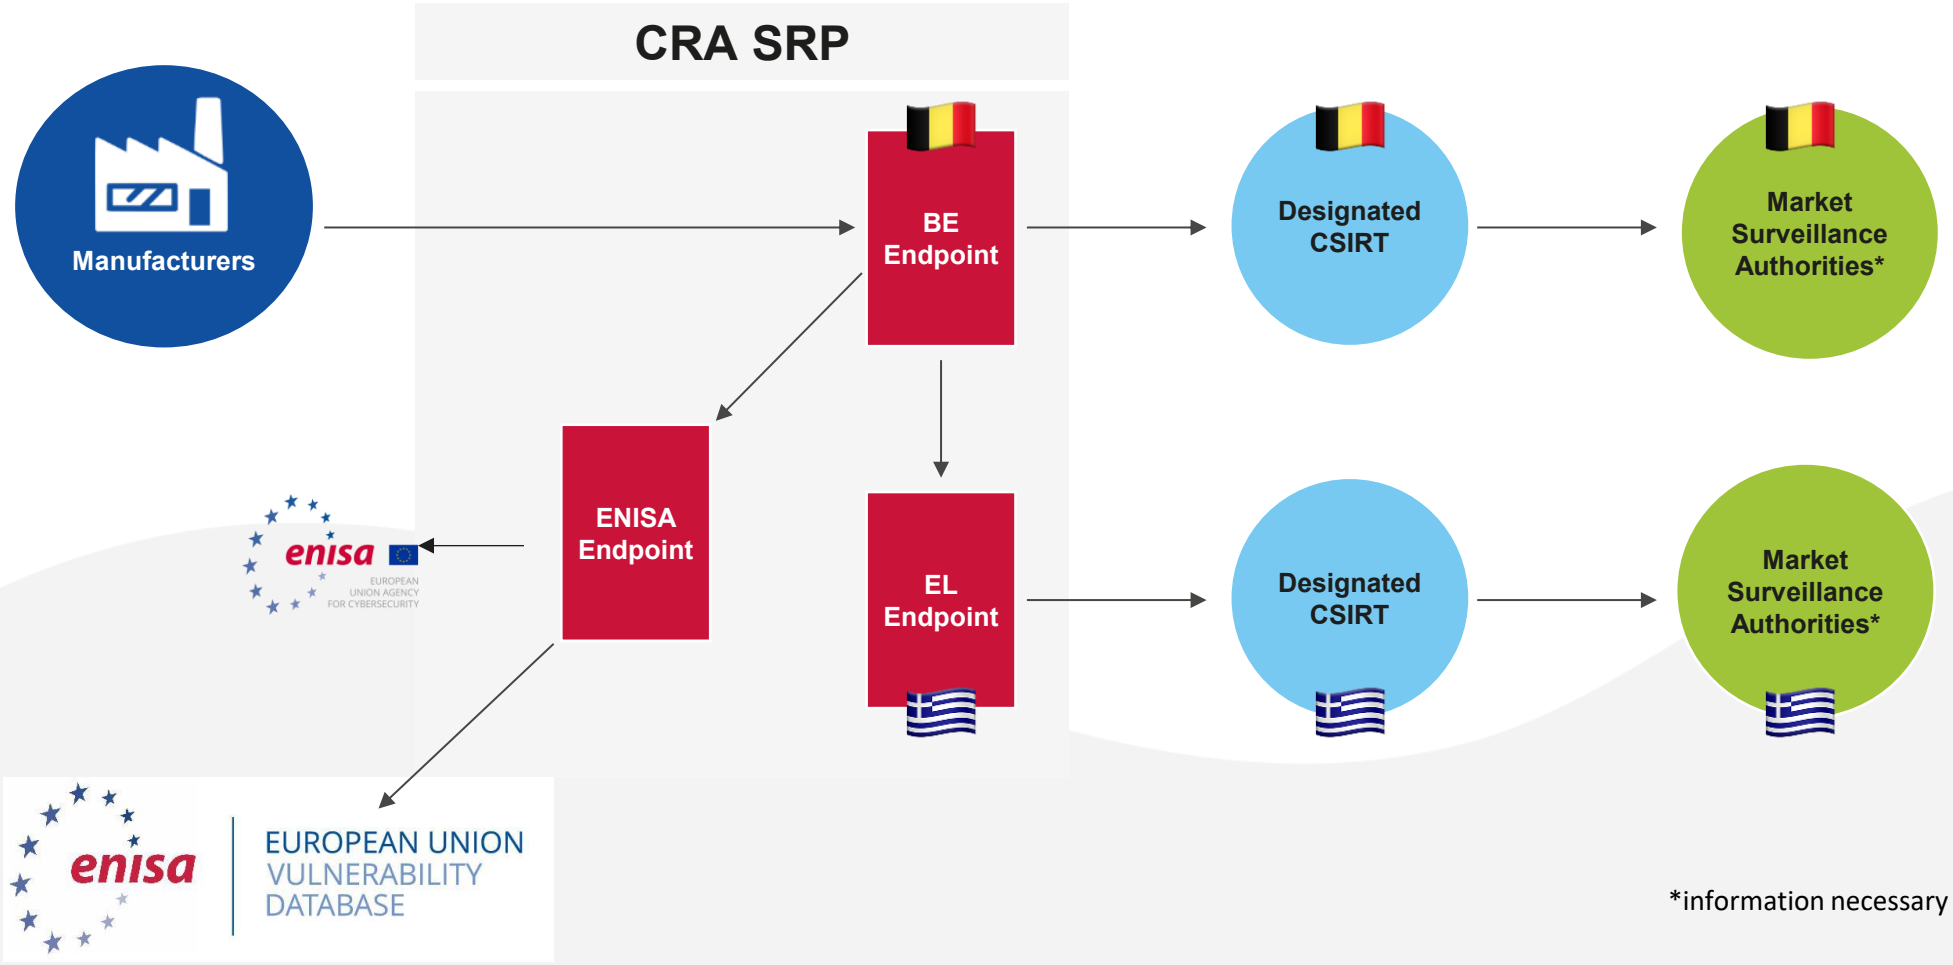

Acting in accordance with the ordinary legislative procedure [2],

REPORTING OBLIGATION

	24 hrs.	72 hrs.	14 days (after mitigation)	1 month
AEV	• Early notification • Member States where product is available	• Nature of the vulnerability • Initial Assessment • Corrective/mitigating actions	• Detailed description, severity and impact • Info on malicious actors • Security updates/corrective measures	
Incidents	• Early notification • Whether is suspected caused by malicious act • Member States where product is available	• Nature of the incident • Initial Assessment • Corrective/mitigating actions		• Detailed description, severity and impact • Type of threat or root cause • Ongoing mitigation

[1] Actively Exploited Vulnerabilities
[2] Incidents having severe impact on the security of the product with digital elements

BASIC MANDATORY REPORTING FLOW

*information necessary for market surveillance

WHO IS MY DESIGNATED CSIRT?

1. **Main establishment**: MS where the **decisions** related to the **cybersecurity** of its **products** with digital elements are **predominantly taken**.

2. **Highest number of employees** in the Union

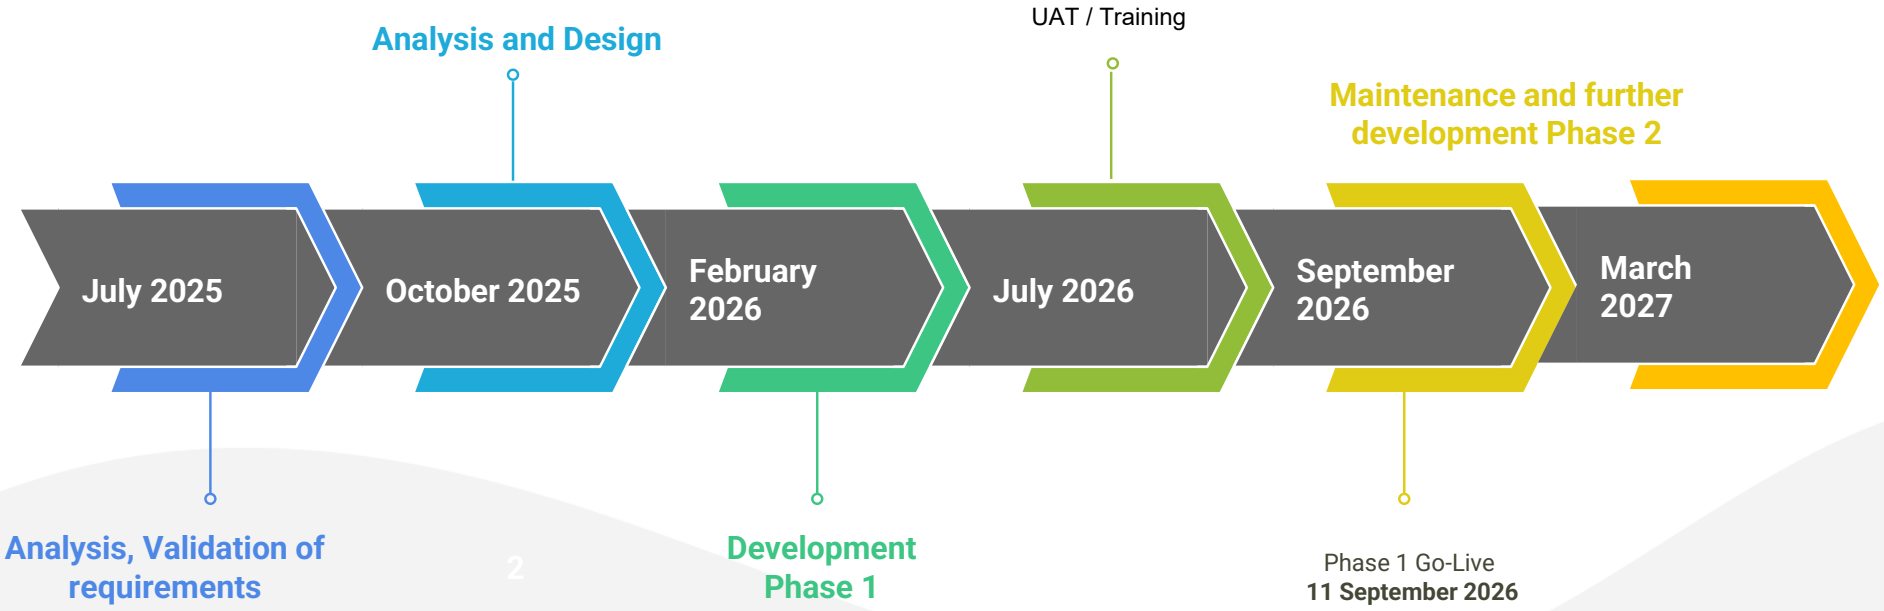

3. Authorised representative acting on behalf of the manufacturer for the highest number of products

4. **Importer** placing on the market the highest number of products

5. **Distributor** placing on the market the highest **number** of **products**

6. Highest **number** of **users** of products

CRA SRP – PROJECT TIMELINE

CRA SRP Outreach

- Timeline
  - ENISA SRP website – beginning July 2026 (Factsheet, FAQ)
  - User guidance for industry – mid-July 2026;
  - User manual for industry – September 2026;
  - Informative video – September 2026
  - Tutorials
    - Presentation of the platform – September 2026
    - Video for ARs – September 2026
    - Update with lessons learnt – mid-December 2026
