

**CLARIFICATION TO TENDER: N° 01**

**“Provision of Media Outreach and Monitoring Services”**

**ENISA P/22/11/PAU**

**Questions & Answers**

<p><b>Q1:</b></p>	<p>I have a question about the countries the services should be provided for. In the document Tender Specifications available on the ENISA official website there is written that the service must be provided for a minimum of five EU Member States (page 6).</p> <p>On page 8, Article 3.1: footnote (1) there is a remark that Germany, UK, France, and Spain are a minimum.</p> <p>I wanted to make sure that I understand the material correctly and that these countries are a must and it is not possible to take part in the tender without these four specific countries or is it possible to provide the mentioned services from any EU Member States?</p>
<p><b>A1:</b></p>	<p>The selected contractor needs to be able to provide the service for a minimum of <b>five EU Member States</b> which <b><u>must include</u></b> the following 4:</p> <ul style="list-style-type: none"> <li>• Germany,</li> <li>• United Kingdom,</li> <li>• France</li> <li>• Spain.</li> </ul> <p>The tenderer is welcome to offer other Member States in addition to the abovementioned. We cannot however accept substitution of a Member State from the list.</p>
