Question & Answer

<p>Q1:</p>	<p>We note section 2.6 of the Technical Specification section states:</p> <p>"The deadline for execution and final acceptance of the task is not later than the 29th of September 2010 or until a deadline to be agreed with ENISA."</p> <p>and then in section 2.13, there is a stipulation that ENISA will have thirty (30) calendar days in which to accept or reject the guide.</p> <p>Is the 30 days for ENISA's acceptance or rejection of the guide to occur before or after the 29 September 2010 deadline?</p>
<p>A1:</p>	<p>In order to avoid any confusion, the referred text in Article 2.6 shall be slightly modified as such:</p> <p><i>"The deadline for execution of the tasks and receipt of the 'guide' is not later than the 29th of September 2010 or until a deadline to be agreed with ENISA"</i></p> <p>The text in Article 2.13 is based on receipt of the finalised 'guide' by the 29th September 2010 or until a later mutually agreed deadline.</p> <p>ENISA will therefore have up to 30 days to approve or reject the 'guide' <u>from this date</u> (or mutually agreed deadline).</p>
