II.1.5) **Short description of the contract or purchase(s)**

ENISA requires the provision of specialised services dealing with an EU overview on trusted infrastructures and services. The services required are summarised below:

- identify the e-signature and e-identity related trust infrastructures and service providers (TSP) used in e-gov applications in EU and make an inventory of them,
- make a description of the most important technologies and security mechanisms used by the above identified TSPs,
- provide a more complete picture of the technologies used by the TSP in EU. This will allow the assessment of the risks of cross-border unreachability,
- collect ideas for the harmonisation of requirements applicable to TSPs in EU. The result of this analysis is intended to promote harmonisation of risk mitigation tools implemented by TSPs,
- provide recommendations to e-gov portal managers on the following:
 - the trust services they may integrate into their building blocks, so as to improve the trustworthiness of the services they provide,
 - the requirements they may impose on the TSPs to ensure on-going trustworthiness of their services.
