

## TRAINEESHIP NOTICE

### Ref. ENISA-STAGE-2011-03

The European Network and Information Security Agency offers **traineeships** for periods of up to **five months**. The traineeship program aims to provide trainees with work experience in the field of network and information security.

Specifically ENISA requires **trainees** for its operational departments.

#### Requirements:

- First cycle of university achieved (preferably but not exclusively, in computer science, mathematics, physics, engineering, economics).
- Knowledge and/or expertise in at least one of the following domains:
  - Network and Information security technologies and services
  - Requirements and technologies for monitoring and improving the end-to-end security and resilience of communications networks
  - Critical information infrastructure protection
  - Network and Information security standardisation and regulation
  - Electronic identity and authentication technologies
  - Information security statistics
  - Economics of Network and Information security

**Starting date and duration:** The starting date of the traineeship will be determined by the Agency according to its needs.

More information about the recruitment procedure as well as the rights and duties of the trainees can be found in the **Rules governing traineeship periods at ENISA** available on the web-page indicated below. We strongly recommend the applicants to read them carefully.

Interested candidates should apply by submitting the electronic application form and detailed curriculum vitae in European format, preferably in English.

Applications that do not meet the eligibility criteria or are incorrectly submitted will be rejected.

**This call for trainees will remain open until 30 June 2012 at 13:00 (GMT+3). The first evaluation for traineeships will take place no earlier than one month following the publication of this vacancy notice. Further evaluations will be carried out as necessary to fill possible on going needs. Information on the application procedure can be found in <http://www.enisa.europa.eu/recruitment/application-procedure>**
