# InterCOP, background

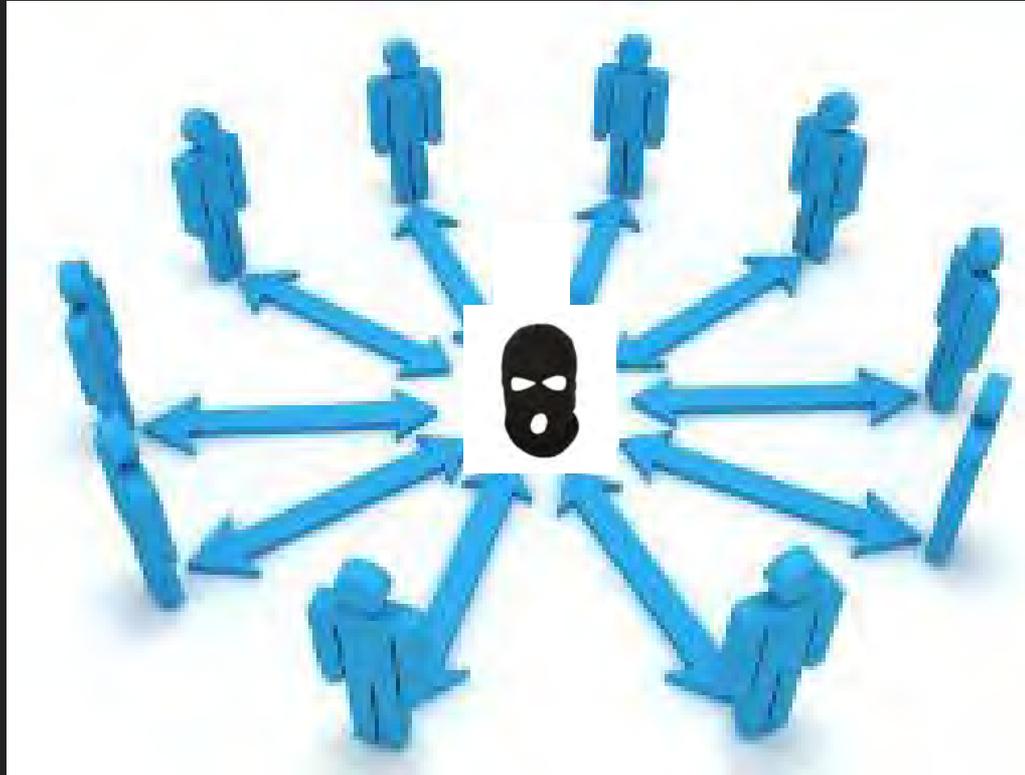

- Established as an EMPACT (European Multidisciplinary Platform Against Criminal Threats) project in 2021
- NL is project manager with FI, PT, SE and UK as "co-signers"
- Received ISF (EC internal security fund) funds for 3 years -> 2023-2025
- Create a toolbox with different ways to catch and bring over young potential cyber criminals to the "good" side
- Started with 5 countries and are today 36 countries' LEAs, NGOs and academia

# Why ?

- Cyber crimes have increased massively, the average age of perpetrators that get arrested are about 19 years
- Gaming gateway - preventive and early intervention via the Internet, parents and the school important; "Hack\_right", "We need a cyber hero", "You're one click away from cybercrime" etc
- 60% of DDOS attacks today are carried out by young people in the gaming world
- Investigative resources are limited, we need to invest in preventiv work since that is the only possible way forward.

## Viktigt att veta om DDoS

Visste du att DDoS-attacker är brottsligt? En enda attack kan räcka för att hamna i brottsregistret eller dömas till böter eller fängelse. Gör det inte. Tänk efter före och var schysst både mot dig själv och andra.

Att utföra DDoS och liknande attacker är straffbart enligt lag i Sverige. Men det kan vara svårt att veta vad som räknas som brott. Här är ett exempel:

### Exempel på olaglig attack

Sam spelar onlinespel och vill ha en högre ranking än sin motspelare. Sam använder en DDoS-attack för att störa motspelarens anslutning, så att hon själv vinner.
