ENISA Telecom Security Forum 2026

 7 May 2026

 ICT Academy, Digital Security Authority, Nicosia, Cyprus

Agenda

On 7 May ENISA organizes the 2026 edition of the ENISA Telecom and Digital Infrastructure Security Forum, in the ICT Academy of the Digital Security Authority of Cyprus, in Nicosia, Cyprus. This edition is co-organised with the Cypriot Presidency of the EU, and the Cyprus Digital Security Agency (DSA). Join us in Cyprus and discuss the hot telecom security topics with EU policy makers, with the telecom regulators and key experts from the sector.

Topics: After the high-level keynote opening at the start, we will have 4 sessions with short talks:

- Session 1: Cyber-attacks on the networks
- Session 2: Resilience of digital infrastructure
- Session 3: New telecom networks, new technologies
- Session 4: EU policy landscape and challenges for the sector

For National authorities, ministries, agencies: 6 May - 48th meeting of the ECASEC subgroup of EU telecom authorities - for telecom NRAs and NISCG 5G/Telecoms cybersecurity workstream.

BACKGROUND

Since 2010 ENISA has worked closely with EU telecom security authorities, establishing ECASEC, a working group of experts from national authorities from across the EU, and several EEA, EFTA and EU candidate countries. The goal of the ENISA ECASEC expert group is to discuss and agree on a harmonized approach to telecom security and supervision of the EU's telecom sector. For more details about ECASEC see ECASEC Expert Group Portal.

The forum is a continuation of a series of meetings, previously called ENISA Article 13a Open Day. This is the 5th edition of the ENISA Telecom Security Forum. Agendas of events of previous years can be found here:
